

Umbrella Deep L & XL

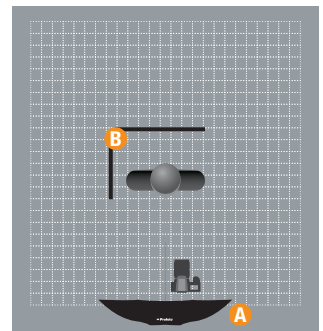

Size L: 130cm / 51", Size XL: 165cm / 65"

Deeper Shape for a Broader Range of Possibilities.

Umbrella Deep has a deeper, more parabolic shape than the average umbrella. The deeper shape gives the photographer better control of the light spread. It also allows the photographer to focus and shape the light by simply sliding the umbrella shaft in its holder. In addition, Umbrella Deep is remarkably reliable and sturdy. Umbrella Deep is available in two sizes (L 130cm/51" and XL 165cm/65") and in three fabrics: White, Silver and Translucent.

Umbrella Deep L & XL

7 Important product advantages & user benefits

1. Large light source that creates a soft and even light spread.
2. Deeper shape for better control and precise light shaping.
3. 16 strong glass fiber rods for a rounder shape and a more even light spread.
4. Made with heat resistant, high-quality fabrics to provide a superior quality of light through years of heavy-duty use.
5. Surface treated metallic elements to prevent rust and discoloration.
6. Optional diffuser available for a softer, more even light spread.
7. Delivered with a high-quality bag that protects the umbrella when stored and during transport.

Fabrics

Silver

Silver increases the light output and creates more contrast and crispier colors.

Translucent

The Translucent Umbrellas are actually diffusers that create a softer and more even light spread with less contrast.

White

White reflects the light in a natural way.

Specifications

Product name	Product no.
Umbrella Deep White L	100977
Umbrella Deep Silver L	100978
Umbrella Deep Translucent L	100979
Umbrella Deep White XL	100980
Umbrella Deep Silver XL	100981
Umbrella Deep Translucent XL	100982

Measurements

Size Large 130cm / 51in
Size XL 165cm / 65in

Weight (including bag):

Size Large White 1,2kg / 2,6lbs
Size Large Silver 1,05kg / 2,3lbs
Size Large Translucent 1kg / 2,2lbs
Size XL White 1,5kg / 3,3lbs
Size XL Silver 1,3kg / 2,9lbs
Size XL Translucent 1,25kg / 2,8lbs

Accessories

Pull one of the optional Diffusors over the front of the white or silver umbrellas to turn it into a huge softbox, thereby creating a softer and more diffused light. The Diffuser is delivered with a practical bag.

Product name	Product no.
