- Form-factor: small & versatile (4"x4"; under 2.1 lbs)
- REDCODE RAW, now simplified with quality levels
- 4K monitoring out
- Cinematic color science with IPP2

Compact cinema camera featuring RED's unparalleled image quality, color science, and groundbreaking global shutter sensor technology in a shockingly small and versatile form factor.

KOMODO 6K is the latest breakthrough product in RED's long line of innovative image capture technology. The newest entrant into the RED lineup is a compact and highly powerful cinema camera. It features RED's cinema-grade image quality, color science, and sensor technology into a shockingly small form factor so that users can take it anywhere and adapt it to any shooting scenario.

The new sensor in KOMODO is a 6K S35 global shutter sensor that breaks new technical ground by eliminating the need to sacrifice dynamic range while meeting the RED standard of unmatched imagery without any creative or technical compromises.

The built-in RF mount allows you to adapt to numerous different lens adapters, such as Canon EF, PL and Leica M mount, providing ultimate flexibility to achieve the look of your choosing. KOMODO also has a DC IN power port and can also be powered using two Canon BP style batteries.

Whether you are working on a major film production with multiple cameras, or you are an on-the-go content creator, KOMODO will fit the need for your job.

Global Shutter:

Capture every moment, burst, and flash without sacrificing an ounce of dynamic range or overall image quality.

Movement:

Capture fast-moving action like it's meant to be captured. No blurred or curved lines- just perfect pixels in every shot.

Dynamic Range:

KOMODO stays true to RED's reputation and heritage of unrivaled dynamic range. Capture every detail from the most cinematic shots.

Flash:

The KOMODO 6K sensor isn't phased by quick bursts of light like strobes or lightning. So users never have to compromise getting the shot they want.

VFX:

No rolling shutter artifacts means less time fixing footage for camera tracking and match-move. Saving valuable time and money in post-production and VFX.

Resolution:

Shooting on a bigger canvas allows creators to unlock more creative flexibility with benefits such as stabilization, reframing, and more.

Form Factor:

Goecker for shooters

KOMODO is smaller and more versatile than any comparable cinema camera in the industry. Allowing you to get shots you never thought possible.

4K Output:

Whether on set or online, take advantage of live 4K monitoring output to review content or stream.

Versatile Lens Mount:

KOMODO built-in Canon RF-style mount, allowing users the flexibility to use numerous different lens adapters, such as Canon EF, PL and Leica M mount.

High-Resolution Touch Screen:

Easily preview content and navigate menus.

Media:

CFAST 2.0 media allows users to use a widely accessible, standardized, and reliable media source

Batteries:

KOMODO uses either Canon BP955 (4900mAh) or BP975 (730mAh), allowing users to choose an industry standard and widely relied-upon power source

Specifikationer:

Producent	RED
Kategori	Videokamera
Objektiv mount	RF (Canon)
Kompatible mounts	RF (Canon)
Megapixel Opløsning	19.9
Sensor størrelse	Super 35
Batteri	Canon BP-9 Serie
Vægt	1000
LCD størrelse	2.9
Touchskærm	Ja
Lagringsmedie	C-Fast
