Beskrivelse:

Steadicam/Accessory mount

Kit for adapting monitors, steadicam or tripods 35mm diameter. This set is made of aluminum which ensures high durability, stability and exceptional lightness.

In case of heavy equipment, we recommend adapting it near the center of the trolley so that it does not overturn. The best solution for adapting/ installing is presented on the attached photos - on the swivel wheels/narrow side of the trolley. Using the steadicam, we recommend fixing on both legs.

All Adicam accessories are compatible with each other, after removing the Manfrotto adapter, you can mount other Adicam products.

Maximum lifting capacity - 30 kg

The set includes:

2× handles with 35mm tube and manfrotto head R069,40

Specifikationer:

Producent	Adicam
Kategori	Vogne tilbehør
