### Beskrivelse:

#### *Crossbar Clamps*

This set is suitable for adapting 35mm diameter tripods/pipe depending on customer preferences. Crossbar clamps can be mounted without removing the top shelf.

In case of heavy equipment, we recommend adapting it near the center of the trolley so that it does not overturn. The best solution for adapting/installing is presented on the attached photos - on the steering wheel and on the narrow side of the trolley.

All Adicam accessories are compatible with each other, using the Manfrotto r069,40 adapter, you can adapt monitors or tripods with a diameter of 35mm.

Maximum lifting capacity - 30 kg

#### **The set includes:**

2× crossbar clamps for 35mm tripod/pipe
