Beskrivelse:

Aputure MC Mini RGBWW LED

- 400 lux @ 0.5 meters
- 3,200K-6,500K CCT with Full HSI Color Control
- CRI: 96+, TLCI: 97+, SSI(D56): 74, SSI(Tungsten): 84
- 0-100% Brightness Control
- 9 Built-In Lighting FX
- 95% BT.2020 Color Gamut Coverage
- Sidus Link Mobile App Control Up to 400m Away
- Up to 120 Minutes Battery Life @ Max Brightness (2,600mAh)
- Up to 15 Hours Battery Life @ Min Brightness
- Qi Wireless Charging Protocol Compatible

ANY COLOR

The MC is Aputure's first light to include full Hue, Saturation, & Intensity (HSI) color control. With 360° of hue and 100 levels of saturation adjustment, you have the power to conveniently reproduce any color, all in the palm of your hand.

STELLAR COLOR QUALITY

As with all Aputure lights, the MC prides itself in its color rendition, with CRI and TLCI scores of 96+, and SSI scores of 84 in tungsten and 74 in daylight. This is all accomplished by an underlying technology that reproduces color better and more accurately than ever before: RGBWW.
Unlike traditional RGB, the Aputure MC isn't just a light that relies on Red, Green, and Blue LEDs. By adding two additional white LEDs – one balanced at tungsten and a second at daylight – the Aputure MC is an impossibly small light that competes with industry giants.

HSI / CCT / FX LIGHTING MODES

The Aputure MC allows you to be more flexible in your filmmaking, providing you with multiple lighting modes to suit your needs. In addition to HSI Color Mode, the MC allows you to adjust your white light with CCT Mode, or use built-in lighting effects with FX Mode.

CCT LIGHTING MODES

The MC is Aputure's first mini LED that offers fine CCT control. You can accurately choose any color temperature in the MC's expanded bi-color range between 3200K-6500K, in increments of 100K, allowing you to adapt to any situation.

FX LIGHTING MODES

In the MC's FX mode, toggle between any of the MC's nine built-in lighting effects presets to help you out in a pinch. If you need more control over your lighting effects, the Sidus Link app will allow you to adjust all of the effects' parameters. Lighting effects include: Paparazzi, Fireworks, Faulty bulb, Lightning, TV, Pulsing, Fire, Party, Cop Car.

ANY PLACE. ANY TIME

As part of our M-Series of mini LEDs, the 130g MC easily fits in the palm of your hand. With a footprint only slightly larger than a credit card and thickness of only 17mm (11/16 in.), the MC fits anywhere. The built-in magnets and 1-4″-20 screw mount allow you to place and use it in seconds. Use it as an on-camera light, or hide it off-screen for an app-controllable accent or fill light. With its lightweight, slim profile, you can tuck several MCs in your camera bag or pockets, so you're always ready to go.

SIDUS LINK CONTROL

As the first RGBWW light to be compatible with the Sidus Link mobile app, the true abilities of both the light and the app are finally unlocked.
One of the most groundbreaking features of the Sidus Link app is the Color Picker function. With the Color Picker, you can simply point your phone's camera at a color, capture it, and your light will reproduce it instantly. What you see is what you get. Just grab the color and start shooting!

SIDUS MESH

The Sidus Mesh™ technology built into the MC, the backbone of the Sidus Link™ mobile app control, is perhaps the most advanced smart light technology yet. The proprietary Sidus Mesh™ system allows each light to communicate with each other and with the mobile app simultaneously. Each additional light increases the integrity of the network. This enables you to control lights within a 400-meter range, without the need for an external router, as long as there are lights at most 80 meters between each other.

ENJOY FREEDOM FROM CABLES

The MC is compatible with the Qi wireless charging protocol, enabling it to be used with the majority of the wireless chargers on the

market. Simply place it on a wireless charging pad and the MC will be ready when you need it.

In the Box:

- 1 x Aputure MC
- 1 x Silicone Rubber Diffuser
- 2 x Magic Tape
- 1 x USB Type-C Charging Cable
- 1 x Carrying Pouch

Specifikationer:

Producent	Aputure
Kategori	LED lys
CRI	96
Strøm/batteri	5W
Lysstyrke	0,3m: 1100 lux / 0,5m 400 lux / 1m 100 lux
Længde	93
Bredde	6.1
Dybde	1.7
Farvetemperatur	3200-6500K
Leverandør	Aputure
