### Beskrivelse:

#### *Sunbounce Sun Swatter Translucent Screen SSW 1/3 PRO*

The SUN-SWATTERs create a shadow that moves synchronously with the actors and models.

The unique SUN-SWATTERs can be recognised immediately because they look like a giant fly swatter hovering over the models. The contrast reducing SCREENs are held by a stable "U" -shaped aluminium frame, which is attached to a holding rod (BOOM-STICK) that can be adjusted in height.

This construction provides mobility and a space-creating distance to the object. In mobile applications, the system is carried only by one assistant. A tripod is sufficient for static applications.

The smart construction of the SUN-SWATTER is a further development of the SUNBOUNCE CLASSIC 3-D frame. The 3-dimensional "U" ensures that at least one side of the frame does not throw rod shadow.

The SUN-SWATTER is available in three sizes from 90 x 125 cm to 180 x 245 cm (3' x 4' to 6' x 8'):

- MINI: for portraits
- PRO: for full body images
- BIG: for groups
- SPOT: for portraits

#### *In the box:*

- Screen
