Goecker for shooters

Beskrivelse:

Goecker for shooters

DJI Ronin RS 2

- Max payload: 4,5 kg / 10 lbs
- 2nd-Gen RS stabilization algorithm
- 1.4" full-color LCD touchscreen
- Runtime up to 12 hours

Masterfully Crafted

DJI RS 2 isn't just a gimbal - it is an unparalleled solution for dynamic cinematography. Every design element and feature is made to deliver industry-leading camera stabilization. Simply put, DJI RS 2 is crafted for you to master filmmaking.

Film More, Pack Less

Monocoque carbon fiber construction adds incredible strength and unbelievable lightness to the axis arms.

A 1kg gimbal with 4.5kg tested payload offers the highest weight-to-payload ratio in the industry.

Full-Color Touchscreen

Access ActiveTrack 3.0 right from the touchscreen, freeing your creative control. The full-color LCD screen allows you to quickly adjust parameters and access Ronin app features.

Titan: DJI Stabilization Evolved

No one makes camera stabilizers like DJI. The Titan Stabilization Algorithm captures smoother footage than ever. Need more? SuperSmooth mode compensates for micromovements and increases torque, stabilizing even 100mm zoom lenses.

Endless Possibilities

While DJI RS 2 is optimized for capturing unique shots with a single hand, it is also designed to be a professional filmmaking solution. No matter how complex your shot, DJI RS 2 adapts to achieve your vision.

Both RSA ports are NATO-compatible, opening DJI RS 2 to a universe of third-party accessories along with versatile handling and mounting possibilities.

Cinematic Sharpness

A built-in front dial above the trigger allows for single handed focus control. It also complements a mounted Focus Wheel for two-channel focus and zoom control, right from the handle.

The 3D Focus System uses ToF sensors to measure the distance between lens and subject for a sharp picture, even in low lighting. This advanced system enables fast autofocus on manual, large-aperture lenses.

The Best Battery Yet

The BG30 grip has a max runtime of 12 hours and can charge independently from DJI RS 2. Fast charging enables two hours of runtime with just a 15min charge.

DJI RS 2 employs a cartridge design for more secure battery mounting and faster battery swaps.

In the Box - DJI RS 2

- Gimbal x 1
- BG30 Grip x 1
- USB-C Charging Cable (40 cm) x 1
- Lens-Fastening Strap x 1
- Extended Grip/Tripod (Metal) x 1
- Quick-Release Plate (Arca-Swiss/Manfrotto) x 1
- Briefcase Handle x 1
- Camera Riser x 1
- Carrying Case x 1
- Multi-Camera Control Cable (USB-C, 30 cm) x 1
- Multi-Camera Control Cable (Sony Multi, 30 cm) x 1
- Multi-Camera Control Cable (Micro-USB, 30 cm) x 1
- Multi-Camera Control Cable (Mini-USB, 30 cm) x 1
- Hook-and-Loop Strap x 3
- D-Ring Camera Mounting Screw 1/4"-20 x 2
- RSA/NATO Port Cover x 1
- Pan Axis Sleeve x 1
- Screw 1/4"-20 x 1

Specifikationer:

Producent	DJI
Kategori	Gimbal support
Leverandør	Boston
