Beskrivelse:

Pack Light, Fly Free

Just how light is DJI Mini 2? At less than 249 g, it weighs about as much as an apple and fits in the palm of your hand. Compact and convenient, Mini 2 is your ideal travel companion, transforming how you capture your favorite memories.

Small But Mighty

Thanks to intuitive and advanced features packed in a portable frame, DJI Mini 2 provides complete freedom wherever and however you want to create. Whether you're shooting at a deserted beach or capturing the details of a fun family reunion, Mini 2 can handle it all.

Powerful Performance

It may be small, but this drone packs a ton of power. With a max battery life of 31 minutes, DJI Mini 2 grants more than enough time to compose the perfect shot.

Mini 2 can resist 29-38kph winds and take off at a max altitude of 4,000 meters, so your footage is stable even when flying along a windy coastline or high above an alpine forest.

OcuSync 2.0 Video Transmission

Explore your world without limitations. Mini 2 supports up to 10 km of HD video transmission and has excellent anti-interference capabilities, giving you the ability to fly farther and see clearer.

3-Axis Gimbal with 4K Camera

A 12MP camera in the sky delivers content guaranteed to impress. Along with 4K/30fps video and a 3-axis motorized gimbal, Mini 2 ensures stunning image quality that is consistently smooth no matter how adventurous your piloting gets.

QuickShots

Instantly master aerial photography. With just a few taps, DJI Mini 2 automatically records and shoots professional-level videos to share directly on social media. Whether you're a beginner or a more experienced flyer, the DJI Fly app helps you produce impressive results complete with soundtracks and filters.

Panorama

Show off just how epic your view is. Select from Wide-Angle, 180°, and Sphere panoramas, and DJI Mini 2 will do the rest, generating a panoramic masterpiece almost instantly.

Enhanced Photo

Why wait to share your best photos? The DJI Fly app features intelligent, built-in photo optimization. The app automatically enhances image quality after downloading a photo, resulting in vivid colors and details that pop.

Simplified Flight for Stunning Content

DJI Mini 2 carefully optimizes user experience and intelligent features. Thanks to Smart Return to Home, automatic takeoff, and precise hovering, operation is more streamlined and safer than ever. [4] The possibilities are endless when the sky is your playground.

Fly Spots

Discover a new adventure. Not sure where to fly? Figuring out where to take off no longer needs to be a headache. Plan your itinerary in advance with the DJI Fly app, and you might even come across another aerial photography enthusiast.
