Beskrivelse:

System bag BILLINGHAM for Leica, black

Designed and crafted exclusively for Leica by Billingham, this premium bag is one of the most versatile in the range of M-System bags. Compact yet roomy, it offers sufficient space for up to two M bodies and two lenses or one M body and three lenses. Even large lenses and cameras fitted with a Leicavit M or Handgrip M can be safely and securely stowed away. A practical compartment with a zipper provides space for a charger, spare battery and other accessories. Its robust fabric is water- and dirt-repellent and satisfies the most stringent demands for resilience.
