Beskrivelse:

Leica Handgrip Q2

The handgrip ensures that the Leica Q2 lies safely and steadily in the hand. Thanks to the elaborately embossed diamond pattern of its leather trim, the camera is held securely and steadily at all times - particularly practical when shooting one-handed. Handling becomes even easier when the handgrip is used in combination with finger loops. These can be quickly attached to the handgrip and are available in three different sizes: S, M, and L. The use of the handgrip is not possible in combination with the protector.
