Beskrivelse:

Discover why it is nicknamed The Beauty Dish.

Photographers often refer to the Softlight Reflector White as the “Beauty Dish.” The reason for this nickname is simple: it offers the perfect combination of even light, crisp definition and contrast. The resulting effect is a pristine, natural look with slightly accentuated shadows that is often ideal for portraits and people photography. The white version delivers a softer and slightly more even light than its silver counterpart.

- Light spread: 65° at position 4.
- Output at 2 m with 2,400 Ws @ ISO 100: f/32.4 at zoom position 4.
- Designed to withstand years of professional use.
