Beskrivelse:

A classic among our Light Shaping Tools.

The Zoom Reflector has served photographers all over the world for more than four decades. It is arguably one of the most versatile reflectors available, capable of providing the light of a normal reflector, a wide-angle reflector and everything in between, thanks to the unique zoom function. The integrated grid holder and a number of optional accessories expand its already impressive versatility even further.

- Light spread: 105° at position 10, 75° at position 7 and 35° at position 6.
- Output at 2 m with 2,400 Ws @ ISO 100: f/45.1 at zoom position 7
- Features Profoto's unique zoom function - shape the light by simply sliding the reflector back and forth on the head.
- Designed to withstand years of professional use.
- Expand its versatility even further with optional the accessories such as Grids, BarnDoors and Snoot.

Goecker for shooters
