Beskrivelse:

Ideal for head and shoulder portraits, used with off-camera flashes

OCF Softboxes create a soft and flattering light and they're designed to be fast and easy to use on location. Constructed from a unique material, they are lightweight and easy to fold and unfold, which makes them very compact and portable to carry in your location lighting bag. Add to that the fixed diffuser, the patent-pending speedring and the color-coded rods for extra fast set-up.

The OCF Softbox Square is popular for shooting people, especially on head and shoulder portraits where it provides an even, soft-edged and flattering light on all sides that seems to wrap around the subject.

Important to note:

Only recommended for Profoto off-camera flashes with LED modeling light; B1X, B2 and the former B1. May not be used with D1 and D2 monolights or standard heads.

Profoto OCF Softbox 1.3x1.3' features

- Creates a soft and flattering light
- Color-coded rods and fixed diffusers for fast and easy setup
- Compact and lightweight
- Made with high-quality fabrics
- Requires an OCF Speedring (sold separately)
