Beskrivelse:

Play with colors

Light shaping is the key to creating amazing images, and Profoto Clic light shaping tools provide many creative possibilities for the Profoto C1 Plus, A1X and A1. Each light shaping tool has its own distinct effect on light.

Clic Creative Gel Kit consists of Clic Gel Rose Pink, Peacock Blue, and Yellow, adding beautiful colors to your images. They are designed for fun and creative color effects.

Clic Gels click on and off in no time with the lights' magnetic mount. You can stack the gels together, so you can combine two colors into yet another color, and you can stack them with other compatible light shaping tools, enabling limitless creative possibilities.

Profoto Clic Creative Gel Kit Features

- Play with colors
- Easy click-on magnetic mount
- Stackable with compatible light shaping tools
