Beskrivelse:

SmallRig 1842 DSLR Monitor Holder Mount

- Monitor can be locked via a 1/4" screw manually and locked tighter with a hex spanner
- The structure is very compact and it supports monitor up to 1,5 kg
- Rotation axis enables to adjust the position of monitor up to 180° for better monitoring

SmallRig 1842 DSLR Monitor Holder Mount is used to mount a monitor to a cage. It enables you to have better monitoring as per the needs in different shooting scenarios.

Rubber cushion on the top is utilized to prevent the monitor from any scratches and damages. Rotation axis enables to adjust the position of monitor for better monitoring as per your needs at different directions during shooting, and it enables to fold the monitor for storage and transportation.
